_____

OBJECTIVE

Aspiring software developer seeking a coding position to leverage my collaborative skills and hands-on experience in group projects. Eager to contribute to innovative projects and grow within a dynamic team environment.

EDUCATION

Bachelor of Science in Computer Science, Expected Graduation: 2026 | UMKC

SKILLS

- Programming Languages: Proficient in C++, Python
- Tools: Git, Visual Studio, Jupyter Lab
- **Team Collaboration:** Successfully collaborated in group coding projects.
- **Community Service:** Actively engaged in community service activities.

EXPERIENCE

- Webmaster - Managed and updated the fraternity's website, ensuring content was current and accessible.
- IFC Junior Rep – Represented the fraternity at IFC Council meetings. Developed strong time management skills.

ACTIVITIES

ASIA Community Member, University of Missouri-Kansas City (UMKC)

- Participated in various community events and activities.
- Volunteered in food sorting initiatives to support individuals in need.

Volunteer, SAE

- Contributed to making blankets for Operation Breakthrough, a local charity supporting underprivileged children and families.
